

Ayurveda is a science of medicines tracing its foot prints way back in 5000 years. In the mid-ancient time the knowledge libraries were destroyed by powers which resulted in the end of further research. Today, we are using stored knowledge of Ayurveda and finding it useful.

Nowadays many Doctors, Scientists and Researchers have taken interest and new research activities in Ayurveda have been boosted once again. With this research now we have noticed that we can treat many untreated diseases better than other paths, also we have found new medicines, new principles. In the research.

We have also found new characters of medicines by which we can treat the diseases conservatively and avoid surgeries, pain and stress to the patients.

In USA, Europe the people are interested in Ayurveda. Due to reasons mentioned above, because they know that, this path will help the people not only to cure diseases, but also helps in prevention of the disease.

By use of modern diagnostic technologies and other advanced medical sciences, we can treat tough diseases more precisely by Ayurveda.

AYURVEDNEXT, has been promoted by "Utkarsh Clinic" and it's associated doctors to promote ayurvedic treatments and Ayurvedic Tourism in India. AYURVEDNEXT itself states the next level in traditional Ayurvedic treatments. ^ AYURVEDNEXT is our effort to reach to those who are really needy patients for the treatments which they donâ€™t find in the medicinal systems other than "Ayurveda" ^

AYURVEDNEXT, is also a process of continuous research and development for treatments of the "non-treatable" diseases.

We have developed "Automated Shirodhara Machine" which has been proved to be better resulting and hassle-free in panchakarma treatments. Furtherly, we are working on many projects. Our research work ^ is never-ending pathway for science and it will develop in future called ^ "AYURVEDA NEXT"

Currently we have 2 Panchakarma units one at knowledge hub of India Pune and one at Miraj - the well - known medical city of India. At both the centers we have ultra - modern pancahakarma setups with experienced staff and doctors. At both the centers we also provide treatments for the patients of Liver Cirrhosis, Jaundice, Hepatitis B etc.
