

Rheumatoid arthritis is a very badly complicated disease.

In India itself more than 20% patients suffering from RA. In all over the world it is also a one of the major disease. This disease has progressively bad prognosis, it need to a prolong medicinal treatment; actual problem in treatment is to avoid side effects of the medicines. Here ayurveda has its own work. We can give the ayurvedic herbal medicines for many years.

In all paths most symptomatic treatment is available ayurveda try to recover it from root, or 80% normalization of disease possible as-- patients swelling on joints reduced completely,

Further deformities will be prevented, Deformed joints start moving, Increase the power of grip of joint, Patient's general condition improves, Repeated attacks can be stopped, Patient live normal life,

RA TEST can be negative

For these benefits we have to take special ayurvedic herbal treatment with indicated Panchakarma.

We have taken successful trials in more than 500 patients which are living normal life.

Sometimes results are limited but continuous treatment is required,

Chkungunya induced arthritis is completely treatable,

Ayurved is a real time valuable science and path to treat especially arthritis and vataj diseases.
